GAIA'S GIFT

Expanding the Shungite Quantum Field

Welcome to the first issue of the [Cosmic Reality](#) newsletter, sharing the unfolding Shungite Story: innovative products, news of Shungite Science, & the many miracles of Gaia's Gift!

Cosmic Beginnings: The Origin of Shungite

BY MICHAEL HENRY DUNN
(for [Cosmic Reality](#))

Chemists felt very clever in 1986 when they cooked up a unique carbon molecule called *fullerene* in their laboratories, shaped like a soccer ball, looking like a geodesic dome, and named after Buckminster Fuller. The "Bucky Ball" won its

discoverers the Nobel Prize, opening up a whole new playground for the field of chemistry with the existence of Carbon 60. Only in the vacuum lab conditions of high heat and high pressure could this phenomenal molecule come into being.

So they believed.

It turned out that Gaia – the unified consciousness of the biosphere of our world – was ahead of them by 2.5 billion years. A call had gone out from the long-nurturing mother of this planet that it was now ready for life.

The discoverers of fullerene never imagined it could be found in nature. Then, in 1992, geochemists at Arizona State University in Tempe were startled to find fullerenes embedded in a rare mineral found only in Russia.

This, of course, was shungite. And the mineral came from a geologic stratum which not only predates the origin of complex life, it also predates the era when such a molecule could possibly have formed. A further mystery lies in the fact that shungite contains what chemists call “woody structure,” implying that shungite, like coal, was formed from fossilized plant life.

The only problem is that there was no such plant life on earth in the Pre-Cambrian era. So where did the shungite come from? And why is it that the origin of life on Earth is frequently said to have begun in the same region of northwestern Russia?

And how is it that the shungite deposit also uniquely carries all (yes, all!) of the building blocks of life – every element in the Periodic Table. As if a fiery gift had been delivered from deep space to ignite the flame of evolving life, reaching up from the depths of matter toward the Divine.

We are left with some highly intriguing possibilities:

- The “woody structure” of fossilized plant life in shungite could conceivably come from plant life on another planet (as there was no such plant life on earth when shungite was formed). Could shungite have come from the remnants (as some theorize) of an exploded planet? Or was it uniquely formed somewhere in the heart of the galaxy and hurled our way, picking up high energetics along the way?
- So far as we know, shungite is found nowhere else on earth. Could shungite actually have triggered an evolutionary acceleration in the origins of life on our planet?
- We know that shungite fullerenes attract and neutralize harmful free radicals and are a powerful anti-oxidant. Yet it also operates as a purifying field of energy: a certified quantum physicist has stated that shungite radiates a purifying field which extends many feet (depending upon the purity) – it has even been described as “infinite power in a finite object.”

If shungite did indeed originate on a long-ago exploded world, does this imply that an entire planet once was covered with such a life-giving element? And what kind of sentient beings might evolve under such conditions?

We now have a chance to find out, as the shungite field begins to flow outward to every corner of the earth, touching thousands more souls every day. Water purified, bee colonies restored, anxiety replaced by serenity – and protection afforded against the toxic effects of 4G WiFi and EMF, even as we band together

to prevent the potentially deadly implementation of 5G (from which shungite seemingly cannot protect us).

Could it be, as Edgar Cayce prophesied long ago, that the hope of mankind would indeed flow out from Russia?

Here at Cosmic Reality, we are pleased to suggest that you ponder such intriguing mysteries as you swig your healing shungite water, while enjoying toast dabbled with shungite honey, working on your laptop protected from harmful EMF by shungite stickers, reading an article about the prevention of Bee Colony Collapse through shungite nuggets.

Blessings of Gaia's Gift!

NANCY L. HOPKINS ON THE ORIGIN OF SHUNGITE

Author, researcher, shungite authority, and founder of Cosmic Reality, Nancy L. Hopkins shares her experience of the conscious and almost mystical nature of the "shungite field," and its connection to the quantum nature of the fullerene molecule.

SHUNGITE REALITY RADIO!

Tune in this afternoon at 12 noon ET, Tuesday, April 2nd, as Nancy Hopkins and Derek Condit share amazing information about the many aspects of the shungite phenomenon. Have questions ready for this free-flow Q&A with two of the most knowledgeable authorities in the field. Available on YouTube if you miss the live show.

STAY SAFE WITH OUR EMF/WIFI

PROTECTION KIT

Protect your office, your home, your family from harmful Electro-Magnetic Frequencies and 4G WiFi with Cosmic Reality's best-selling combination of Shungite nuggets, protective S4 Stickers, and Shungite Magnet ([order your kit here](#)).

*"We are the creators.
What we begin to believe is what Shungite will become -
even though it's already there.
We're just following the breadcrumbs."*

-- [Nancy L. Hopkins](#)

NANCY HOPKINS GOES GLOBAL!

Cosmic Reality Founder and shungite pioneer Nancy L. Hopkins speaks to a global audience on Shungite Science and the Shungite Bees on renowned whistle-blower site Project Camelot in a [ground-breaking interview](#) with Kerry Cassidy.

PROTECTING GAIA - LAUNCH OF RADIO 5G

Shungite offers amazing protection against harmful 4G WiFi radiation - but not against the [potentially deadly effects](#) of 5G, which overwhelming evidence proves to be a threat to human health and to the biosphere of our planet. Join Nancy Hopkins and co-host [Michael Henry Dunn](#) on the newly launched [RADIO 5G](#) every Wednesday at 12 noon ET for the latest on how to stop this deadly roll-out. Radio 5G is a joint project of [Cosmic Reality](#) and [The Sacred Academy of Geo-Energetics](#).

UNDERSTAND THE MAGIC!

The Cosmic Reality [Shungite Store](#) does its best to keep you up to date on all the science, the products, and testimonials from satisfied customers. Gaia's Gift newsletter will feature an in-depth exploration of one of the [Frequently Asked Questions](#) in every issue. In our next issue, we will explore the science behind shungite's astonishing ability to purify water.

Wild Queens, Mystic Bees, and a Field of Dreams

Cosmic Reality's own Derek Condit makes an epic journey across the Northwest, leaving a magic trail of shungite-healed beehives in his wake.

The small black particles of stone strewn at the entrance of the hive seemed to act like a drug. The bees instinctively entered the hive only by the corner where the strange black mineral lay. Word had gotten around the small Oregon town that this young fellow Derek was spreading some kind of magic pebbles on the hives of the local beekeepers – hives which had been decimated by the global disaster of Bee Colony Collapse. Bemused rumor said the stuff was from a Russian meteorite. But anecdotal evidence was intriguing – and the beekeepers were desperate. If the Colony Collapse disaster continued, crops on which most of humanity depends (of which the bees are essential pollinators) would shrink to levels which would mean mass starvation – and which was already impacting dying orchards which this region had once known to be abundant.

But the small mountain town was just the beginning of what would turn into an epic journey as Derek responded to the explosion of interest in shungite. His "Johnny Appleseed" quest to spread the shungite quantum field led him from one

end of California to the other, and throughout Oregon and Washington.

"Just throw some shungite dust out the window as you go!" Nancy Hopkins urged him. "Get the gift out there!"

Months later, Derek came back to the small valley see how the hives and the orchards were progressing. Already, evidence had persuaded industrial beekeepers in California to order the "magic pebbles," and Derek was eager to see if these struggling local farmers in the Northwest were also seeing results.

He was greeted eagerly with astonished reports from around the local valleys. Not only were once struggling orchards now so laden with rich fruit that their boughs were breaking, but the hives were thriving, with new queens and new swarms heading out to create wild hives beyond the beekeepers' control – hives which (strangely) were also resistant to collapse...even without the "magic pebbles."

"Yeah, I just kind of wink at them when they ask me about that part," said Nancy L. Hopkins. "That's where the metaphysics comes in. There's no 'logic' to why the new swarms from the shungite-treated hives in the wild are also resistant to the damaging effects of EMF on the bees, even without further contact with the shungite. These are now "shungite bees" and their field of consciousness and their DNA have been affected by the Shungite Field."

And the "Field of Dreams" expands, one hive at a time, across America!
