Bring the Quantum Field into Your Environment.

by Michael Henry Dunn
(for Cosmic Reality)
A drink of pure clean water refreshes us as nothing else can. The taste of crisp green vegetables gives us a surge of vitality. The sight of a thriving bee colony which had almost died gives us hope.

And beyond these tangible effects of creating a Shungite environment there is also a subtler but undeniable result, testified to by thousands of people: an uplifting energetic vibration of enhanced life-force, of the elixir of Nature which we can feel but seldom describe.

And what of the deeper and more refreshing sleep patterns experienced by so many? What of the clearer dreams? The sense of living in an environment which is not only cleaner, but somehow more filled with Life?

This is the Shungite Field.

This is not mere mysticism. It is the very real effect of the nature of the fullerene molecule - the unique element in Shungite which appears to be at the heart of the "miracle mineral" and its remarkable healing and cleansing properties.

Cosmic Reality research shows Shungite has an energy field which causes counter-clockwise energy fields found in toxins to reverse when confronting a Shungite field. Molecular toxins such as heavy metal or chlorine are destroyed during this energy field reversal. Electric, magnetic and radio waves (WiFi) simply reverse spin to become biocompatible when rotating clockwise, with no loss of signal. This is the dynamic behind Shungite Energized Water - ordinary water is energized and purified and endowed with healing energies.

This may be why so many people report experiencing a definite mood-enhancing vibration in their homes once a Shungite Field has been created. No, all your problems will not vanish! But it can be so much easier and more joyful to meet life's challenges in an atmosphere of life-giving vitality.

Not to mention, of course, the peace of mind of protection against EMF and WiFi radiation. And the savings on electric bills from Shungite S4 Magnets. And the fresher food in your fridge. And the pure clean drinking water...well, you get the idea. It sometimes seems as if it's just too many miracles from one little black rock.

This week, Gaia's Gift shares with you a wealth of information on how to create this energetic transformation in your home - all part of our mission to spread the healing Shungite Field to every corner of the globe!
Where do the gifts of Shungite end? Is this one miracle too far?

At Cosmic Reality, we were not looking for this one. We knew that Shungite carries powerful healing and protective power. We've seen it purify water, restore Bee Colonies, protect against harmful EMF and WiFi, and promote a healing dynamic in the body.

And we knew that the Silver-Saturated Shungite Powder in our S4 Stickers and S4 Resin Pendants is even more powerful, as Shungite apparently loves to work with other elements which enhance its properties.

But working with magnets took the miracles to another level:

- **Fresher Food in the Fridge**
- **Save on Electric Bills**
- **Maximize Automobile Fuel Efficiency**
- **Improve Performance of All Your Appliances**
- **Enjoy the Comfort of a Purified Home**

WE CREATED THIS YOU-TUBE VIDEO EXPLORING THE POWER OF S4 SHUNGITE MAGNETS
When we encased a magnet in S4 Resin, we quickly found that the magnets worked to infuse the magnetic field with Shungite and quantum energy, making a refrigerator - or an automobile, or indeed any appliance which uses a motor - into a Shungite-Magnetic Energy Bubble, increasing the efficiency of a variety of electrical devices. In fact, we now warn customers to carefully monitor the cold setting as most refrigerators will become colder within hours of having the Shungite Magnet attached.

We are delighted to hear testimonials such as these:

"My breaker box sticker and fridge magnet cut my electrical bill in half! Thank you!"
-- Steve

"I put a heart magnet on my fridge and it really did like they said. The fridge got colder, so I had to turn it up some. And yes, it did help the electric bill!"
-- Robin
Can Shungite Keep Your Food Fresh?

When we receive messages from Cosmic Reality customers that the food in their fridge lasts longer and tastes better after attaching an S4 Shungite Magnet, all we can do is pass the word! The savings on your electric bill we can document - but this one is up to you. It appears that the purifying properties of the Shungite magnetic field act to remove toxins and preserve food in the same way that Shungite nuggets purify your water. Perhaps it's just one more of Gaia's gifts - waste not! Mother Nature's beautiful produce stays fresh to nourish you and your family.
Can Shungite Increase Fuel Efficiency?

Experience has shown that the Cosmic Reality Shungite Magnets can protect against toxins while increasing the efficiency of any appliance with a motor. Just place an S4 Auto Magnet (or any of our other S4 Magnets) in a protected place in your car, such as the trunk where you put your spare tire, or on the inside of the car where the seats are attached to the metal slide rails. Your automobile now has a powerful Shungite-Magnetic Field protecting against all toxins including those in your gas. More efficient gas is indicated by reports of increased miles per gallon.

SHUNGITE SAVES THE BEES!

THE SECOND IN A VIDEO SERIES DOCUMENTING DEREK CONDIT’S WORK IN COSMIC REALITY'S MISSION TO SAVE THE BEES.

Across our planet, bee colonies are vanishing at an alarming rate and humanity's prospects for survival are shrinking with them. Shungite has been shown to prevent colony collapse - and to help bees thrive. We will keep you posted with video updates in the coming weeks as these hives expand and transform in the Shungite Field!

Should I use "elite Shungite" to purify my water? And what is the most effective way to use Shungite nuggets to purify water?

We do not research nor provide products based upon Elite Shungite. Due to its compact and brittle construction we believe it is not as energetic as what we call “Raw” Shungite. The following is speaking only to Raw Shungite.

**TO ENERGIZER WATER YOU JUST NEED 3 NUGGETS** - any size in any amount of water from glass to jug.

**NO BUILD UP OF TOXINS TO REMOVE** - At least two scientific investigations could not detect any build up of toxins within Shungite to explain how Shungite is also purifying water. So you do not have to replace Shungite at any time. You also do not have to recharge Shungite as it gets its enormous power from the Quantum Field.

**WATER IS TRANSMUTED INSTANTANEOUSLY** - 3 nuggets can transmute a glass of water or a pitcher of water instantaneously. Not only will all toxins be destroyed, the water will become alive with spin, as water from faucets or in plastic bottles do not have molecules in constant clockwise motion as is the case with Shungite Energized Water.

**YOUR HOUSEHOLD WATER SUPPLY** - Your entire household water supply can be charged by taking a 5 inch piece of duct tape and sticking 3 nuggets end-to-end on the sticky side. Then wrap this in a spiral so the nuggets touch the
pipe of either the cold water intake to the hot water heater or on the outside pipe where your main water supply comes into the house. Use of the cold water intake to the water heater is just to protect the tape from heat. You can obtain the same effect by using one of the Shungite magnets or even a Bucky Bandaid.

THE POWER OF THE 3-6-9

The world is now beginning to fully appreciate the genius of Nikola Tesla, whose remarkable discoveries of the principles behind free energy and the underlying energetic structure of the universe are only now being understood. At Cosmic Reality, we are seeing that Tesla's findings on the power of the "3-6-9" have a direct application to the most efficient use of the remarkable powers of Shungite.

One of the most compelling aspects of the Shungite Reality is its blend of science and the sacred, of mechanics and mysticism. In this fascinating 40 minute discussion, Nancy L. Hopkins and Cosmic Reality partner, Walt Silva, go deep into an exploration of how energy and consciousness are the essence of the Shungite phenomenon - and how the ancient mystic "Rule of Three" (known to many faith traditions) can be used to maximize the impact of Shungite.
A magnet on a refrigerator has been shown to reduce electric bills by 20%. And it is a curious thing that Walt Silva's research has shown that three Shungite Magnets on a fridge increases that savings to 30% - yet adding a fourth one makes no difference.

There is something about the number three - a mystical energetic relationship that appears to be rooted in sacred geometry, in the order of the universe itself. The Trinity appears in Christianity, and in the Hindu concept of Brahma, Vishnu, and Shiva as the Creator-Preserver-Destroyer/Renewer aspects of Spirit in Nature. Mystics of all religions speak of becoming one with Source in a transcendent experience of Three-in-One - "Knowing, Knower, and the Known as One."

A quantum expansion seems to take place when the principle of three is utilized. This is borne out by anecdotal evidence as well as ongoing research.

And so we recommend three Shungite nuggets in your water bottle, and three nuggets taped to your water pipe, to maximize the purification power. Nancy Hopkins notes, "we don't push people to put three magnets on every device - the improvement is there with one. But we're not going to just ignore the Rule of Three either!"
